Gaming Audio Series™ SP2200
2.1 PC Speaker System

SKU Live Date	**January 6th, 2011**
Intro Phrase / Tagline	**Big gaming sound in a small package: 46 watt FTC RMS 2.1 system tuned for high fidelity performance and serious bass response.**
Product Full Name/Title	**Corsair Gaming Audio Series SP2200 2.1 PC Speaker System**
25-Word Product Description	A compact 2.1-channel PC speaker system designed for excellent game performance and serious bass response. It delivers big sound in a small package.
50-Word Product Description	The SP2200 is designed for gamers and media enthusiasts who want a compact 2.1 speaker system that doesn't take a lot of space. It delivers strong bass output, along with crisp and sparkling mids and highs. Up-front controls and flexible connection options make it easy to set up and easy to enjoy.
100-Word Product Description	The SP2200 is designed for gamers and media enthusiasts who want a powerful, compact 2.1 speaker system that doesn't take a lot of space. 46 Watts of total power (measured via the FTC "RMS" method), with 30 Watts dedicated to the 6" subwoofer, ensure room-shaking bass and clean, crisp audio reproduction at any volume level. Excellent stereo imaging with a generous "sweet spot" ensure a competitive advantage in games and realistic music and movie audio. The SP2200 is easy to set up, and easy to use. Controls are up front where you need them, and flexible connection options allow you to connect up to three audio sources at once.
Product Features	• 46 Watts RMS continuous power delivery for room-filling sound and clean, crisp audio reproduction • 30 Watt subwoofer with 6" driver for serious bass performance • Compact satellites with 3" drivers provide detailed audio reproduction without taking lots of desk space • Excellent stereo imaging with a generous "sweet spot"
